LANSING, MICHIGAN
Vol. 37

MISS EMMA LOTT
Assistant Principal

AS a mark of appreciation of what Miss Emma Lott has meant to us during our high school days, we, the senior classes of June, 1927, and January, 1928, graduating a year too late to share in the wonderful tribute paid her by the alumni, dedicate to her this edition of the Oracle.

FOREWORD

WE present this Oracle of 1927 to the students of Lansing Central Senior High School with the hope that it will prove to be a prized and pleasing memento of their high school days.

Our theme for the year was worked out by the commercial art classes. It is to be found in the artistic illuminated mottoes, with their Shakespearean quotations, which head each section of the book.

We wish to express unlimited gratitude to Miss Lulu Smith, who has given generously of both time and talent in supervising the art work. We are deeply indebted to Miss Vincent, whose office practice classes have typed all the manuscript. The very generous response of the local merchants to our requests for advertising matter has been a large factor in making possible the financial success of the Oracle. To all of these we here express our sincere appreciation.

Organizations
Our true interest is all for your delight.
—MIDSUMMER NIGHT'S DREAM

ORGANIZATIONS

The Clubs and Literary Societies of L. H. S. have been formed with this purpose in view—to help the school spirit and provide some extra curricular activity for every student. These organizations are open to every student with the exception of a few which exclude sophomore B's, and no matter what course he is taking or what subject he is interested in, he can find one which will be beneficial to him. If a sufficient number of students desire a certain club that has not been formed, it is organized.

There are at present seven Literary Societies and thirteen Clubs, each of which has aims to fulfill and membership requirements. Out of the seven Literary Societies, three, the Adelphic, Euphronian, and Euripidean, are limited wholly to girls, while the Cliosophic and Frasoris are equally divided between boys and girls. The aims of these Societies are to promote the culture and entertainment of their members and mutual helpfulness. The remaining societies, limited to boys, are "The Senate", and "House of Representatives". Here bills pertaining to matters of public interest are introduced and passed. The majority of their programs are extemporaneous.

One of the largest clubs that has so far been formed is the Commercial Club. This admits all regular commercial students or any who have two credits of commercial work. To promote higher standards of scholarship and service among commercial students, to co-ordinate the efforts of the students toward definite ends and to promote a better understanding between commercial students and employers of clerical labor in the city of Lansing, are the results for which it strives.

There are four Clubs accessible to students of languages; two Latin Clubs—one, "The Hodierni Romani" which is limited to Virgil or Cicero classes and Latin IV students with a "C" or better average in Latin three; the other, "Inter Nos", has no restrictions. Both aim to promote fuller appreciation of Roman life and literature.

The Spanish and French Clubs have as their purposes, the improvement of Spanish and French conversation, the delving more deeply into the historic customs of the foreign peoples and the creation of a more intelligent sympathy for and a better understanding of foreigners in the school and community.

The Radio and Science Clubs attract many of the boys, as each offers opportunity for interesting experimental work. Students who are generally interested in radio belong to the first group. The Science Club is divided into two groups. This holds as its purpose the furthering of the knowledge of sciences, development of social life and entertainment from scientific angles.

ORGANIZATIONS—*Continued*

The other clubs, are the History Club which aims to promote interest in history and current events; the Athletic Booster Club the purpose of which is to further the school spirit and promote athletics; the Home Art Club in which girls having credit in Household Art I may learn to improve their work, find new stitches and gain an appreciation of good design. The Outdoor Recreation Club members take hikes and enjoy other outdoor sports. In the Health Club students interested in health or medicine study health practices and become acquainted with the Ingham County Medical Society and the work done there.

These clubs and literary societies are directly connected with the school and meet on alternate Fridays, the third or eighth hour. Each society has a faculty adviser who helps it with its programs and other undertakings. In order that these organizations may be uniform the Board of Control of Literary Societies has been formed. This is composed of the principal of the high school, the presidents of all the societies, and all faculty advisers.

The unit of the strictly high school organization is the Home Room. This offers many valuable services. First, it gives to each pupil the opportunity to practice school citizenship in a small group and so be developed for leadership in the larger school groups, and in later life; secondly, it fosters and develops right ideals of school spirit, and thirdly, it aims to give proper attention to routine matters with economy of time and effect. The plan of Home Room Organization comprises the teacher who supervises and aids in all lines of student participation, a president, vice-president, secretary, and student council member. The officers are nominated, two for each office, by a committee chosen from the floor and are then voted upon by the home room members.

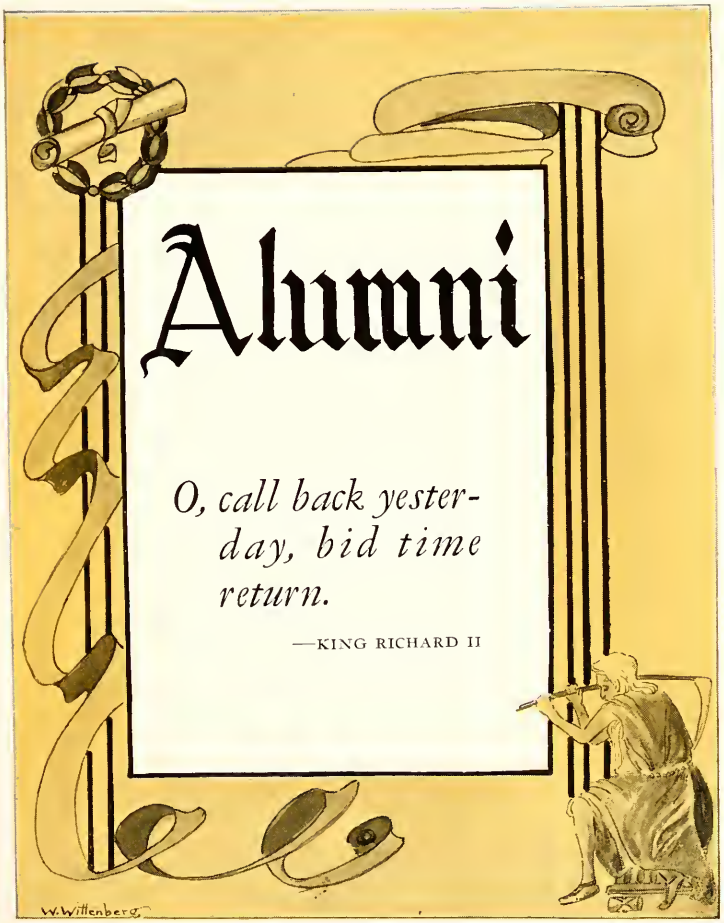
STUDENT DUTY OFFICERS

Russell G. Scott.....*Chief Duty Officer*

Kenneth Foster.....*Assistant Duty Officer*

Russell Reynolds	Ray Wittenberg	Francis Hughes
Roland Boomer	Benjamin Leyrer	Bud O'Mara
	Henry Creyts	

The duty of the officers is to keep order in the hall. This means to (1) Prevent groups standing around in the corridors, (2) To prevent running in the halls. The officers this semester have been carrying out these duties as best they could, and their success has been due to the cooperation of the student body as a whole.



Alumni
O, call back yesterday, bid time return.
—KING RICHARD II
W. Wittenberg

ALUMNI

During the past 54 years, the Lansing High School has graduated 4,133 young men and young women.

I am wondering if either the Faculty, the Under-Graduates or the Alumni, themselves, appreciate the significance of the possibilities that could be worked out with a group like this. About twenty years ago, our present Alumni Association was organized, annual banquets have been held and while many of these banquets have been fairly well attended, at the very best only a few hundred have gathered and this is a strikingly small percentage of the possibilities. Many who have graduated from Lansing High School have taken prominent places, not only in local, but in State and even National affairs and the High School should be very proud of its Alumni. By the same token, members of the Alumni should be very proud of our High School, and it is the duty and should be the pleasure of everyone who has completed his or her course of study to help boost the institution and lend assistance to its Faculty, the Under-Graduates and members of the Alumni, whenever and wherever possible.

From a wide acquaintance with many of the graduating classes as they have come through the High School and being in a position to observe more or less their conduct after graduation, I want to say that the inspiration and training gleaned from the High School has placed these people far above the average. I believe our High School, through this means alone, has marked itself as a high class, inspirational developer of young manhood and young womanhood, and I know that the present Faculty and the Faculty during years past can look with pleasure on the results of their work. I bespeak a continued success for the High School and certainly hope that interest in the Alumni Association will increase until it becomes one of the outstanding organizations in the Public School System of Lansing.

A number of years ago, the Student Benefit Club was organized under the direction of Miss Etta Wilbur and sponsored by this Association. We have a loaning fund of $6,500. Many loans have been made to Students in the Senior High School and graduates who wished to continue their studies in some college or university. Most of these loans have been paid very promptly and I believe that the money invested in this revolving fund, to be loaned to students, has been one of the finest things that has been done. I hope it may grow both from the standpoint of dollars in the fund and the use that may be had of it by deserving students seeking further education.

BERT BAKER,
Pres. Alumni Association.

—THE TEMPEST

H. HOWLAND

THE HESTER HAZE MEMORIAL PRIZE

Established by Dr. and Mrs. Harry Haze in memory of their daughter, Hester, a former graduate of the Lansing High School, and consisting of one hundred dollars in gold, yearly.

Fifty dollars of this amount is to be awarded semi-annually to that girl of the graduating class who, in her spirit and influence, best exemplifies the broad sympathy, loyalty, unselfish service, and high purpose which were Hester's ideals of womanly character and which she earnestly endeavored to attain.

The selection of the successful candidate is determined by the findings of a committee of three girls of the senior class, subject to the approval of a committee of the faculty, composed of the principal of the High School and two other members, chosen by him.

The award is made in the belief that the progress of our morality and culture is in proportion to the pure, high-minded, simple-hearted character of our womanhood.

Up to the present time the following girls have been selected by the various committees as best exemplifying those qualities for which Hester Haze stood:

January,	1923	Beatrice L. Ingersoll
June,	1923	Margaret Goodrich Hayden
January,	1924	Greta June Wallington
June,	1924	Eda Alinda Weiskotten
January,	1925	Bertha Pollitt
June,	1925	Vernice Helen Eckhart
January,	1926	Genevieve Hunt
June,	1926	Ruth Bishop
January,	1927	Nellie Holmes
June,	1927	Elaine Come

How to Succeed in Life

1. Always pay cash—do not mortgage your future with needless credit.
2. Buy only what you actually need.
3. Trade where price prevails for you as well as for your neighbor.
4. Learn to live within your income—it's the first real step in insuring future success.

The policy of this business has been approved by the public it serves. The policy of selling for cash has attracted a constantly increasing volume of business from that most substantial portion of the community which pays as it goes and which spends its income only after it has it earned.

The policy of selling for cash is concededly the most economical method of distribution.

We invite you, Young Ladies and Gentlemen, to visit this new store, study our merchandising methods—above all, learn to practice Thrift and Economy, which will stand in good stead in later years.

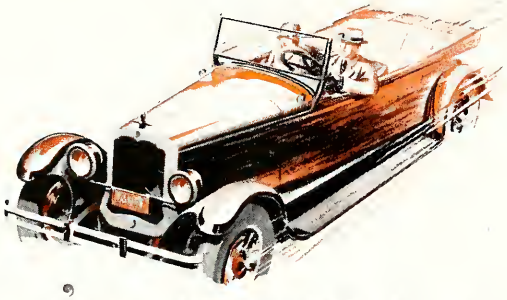
"BE SURE YOU'RE RIGHT
THEN GO AHEAD"



YOU'LL NEVER BE SURE TILL YOU DRIVE AN OLDSMOBILE

No matter how confident you may be that a certain car is the one you want to buy, you can't be *sure* unless you compare it with others at about the price you wish to pay.

Perhaps you need not pay that much to gratify your finer tastes as well as satisfy your every need.

Or, you may be denying yourself the full measure of satisfaction to save merely the few dollars more that would bring you an Oldsmobile.

So come to your Oldsmobile showroom and go over this truly great car, point by point. Drive it—that is the way to really know it.

And even if you do not change your mind, you then can make your choice with truer satisfaction.

You owe it to yourself to select—to choose by *comparison*.

"Be sure you're right, then go ahead."

But you'll never be sure till you drive an Oldsmobile.

Flying Cloud

Vacation Days—
and a Flying Cloud

When the last "exam" has fared the way of all good things and only the summer lies ahead—then it's under the skies with a Flying Cloud and dull care behind in the settling dust.

There's buoyant power and the eagerness to travel; to go anywhere—any time; to the limpid lakes of the cool green north; or west 'til the roads run off into the sky.

And you will travel more swiftly, more smoothly and more enjoyably if your summer cruises are made in a Flying Cloud—the finest, fastest model of America's Longest Lasting Car.

The Pennies Count

Pennies, when they are saved, pave the road to wealth. Many an organ grinder has made a fortune by saving most of the pennies his little monkey collected each day.
